A cylindrical jar of Kurland Goat Butter Massage Lotion is the central focus, resting on a two-tiered, light-colored stone pedestal. The jar has a white lid and a white base. The main body of the jar is orange with white text and a faint leaf illustration. The background is a vibrant blue with a dynamic splash of white milk or cream arching over the jar, and several clear water droplets are suspended in the air. The overall aesthetic is clean, fresh, and natural.

SAUNA CEREMONIES

Our sauna masters welcome those interested with thematic, refreshing ceremonies with different themes. Our guests can enjoy the ceremonies in our Finnish sauna or steam cabin. Our hotel is discreet, naturalistic, so their ceremonies are swimsuit-free, and the use of a sauna sheet is mandatory. During the ceremonies, our sauna master pours various essential oils, beer, brandy, and wine according to the theme appropriate to the seasons.

After the gradual pouring, the sauna master heats and humidifies the air with a fan technique. During the steam ceremony, you can care for your skin with different body scrubs. The sauna ceremonies are held in a good mood, **each program lasts 12-15 minutes.**

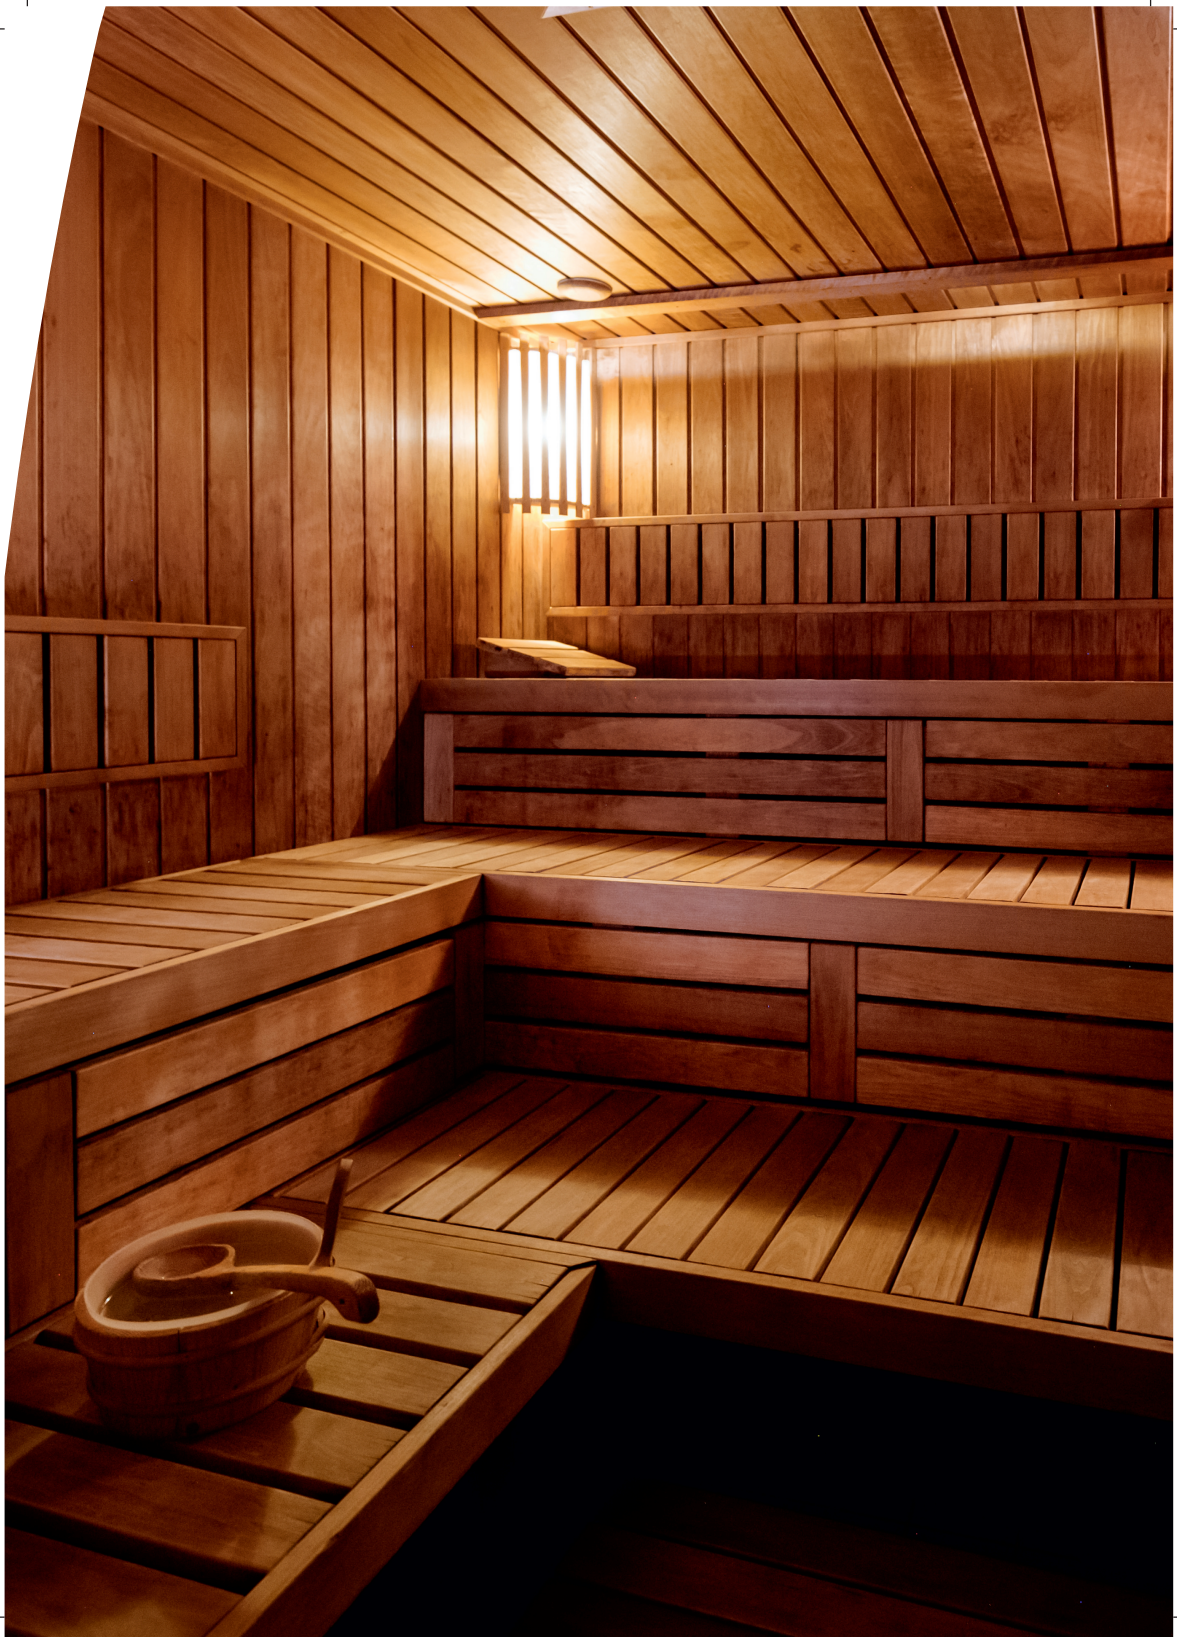

After a sauna, it is important to cool down, which is provided by a shock shower, ice fountain, and Kneipp footbath, so everyone can choose the form of cooling down that suits them. We contribute to your rest and relaxation with a relaxation room, relax armchairs and relaxation beds.

Some of the beneficial effects of sauna use are detoxification, increased metabolism, and skin care.

SAUNA WARNINGS

- Not recommended for pregnant women.
- In case of other health problems, consult the sauna master before using the sauna.
- Before using the sauna, it is recommended to shower and for ladies to remove makeup.

It is not possible to register in advance for sauna ceremonies, but during your stay you can register on the day from 8 am at the wellness reception. The program is available every day for a fee.

SOLAR BEACH / SUNROOM

Every day of the year, our body needs the “vitamin content” of sunlight. We can achieve this at any time of the year with the help of Solar Beach. As a result, we multiply the vitamin D produced in the skin in our body, which attracts many beneficial physiological effects, such as improved calcium absorption. In addition, it gives our skin an attractively beautiful color. The atmosphere of Solar Beach evokes the atmosphere of the beach all year round.

***Contraindications:** excessively white and sensitive skin, excessively freckled skin, during pregnancy.*
